Recommend Permanent Pothole Solutions and their Asphalt Crackfiller Product ACF-1

Following an extensive search for a solution to the cracks appearing in our runway, we came across the Permanent Pothole Solutions website and after speaking with their friendly and very helpful staff we were provided with a solution to our problem.

We originally purchased the Asphalt Crackfiller in a 3.785 litre bottle and found it to be an excellent product. It was easy to apply with minimum tooling - in fact we used a watering can to apply the product. Once the area we tested the product on was shown to be successful we then purchased by the 19litre bucket.

Permanent Pothole Solutions' customer service and after sales follow up is second to none. They didn't just sell us the product, they have kept in touch with us to ensure that we are satisfied with the product and its ability.

I would have no hesitation in recommending the Asphalt Crackfiller product supplied by Permanent Pothole Solutions to anyone who has cracks in their asphalt surfaces.

Yours sincerely
