# Asphalt Crack Filler

## Easy to Use

Effective even on wide cracks

Repair cracks in driveways, parking lots and other asphalt surfaces with this easy-to-use professional-grade compound. Ready to use, there's no need to heat or mix. Its watertight seal will keep your asphalt in good condition by keeping water out and preventing damage caused by ice.

- Dries to a matte black finish.
- Bonds and seals
- Resists oil, grease and salt
- Won't dry out, crumble, run or bubble

Also adheres to wood, metal, masonry and fibreglass

Made in the USA
